The Revolutionary Maoist Front (RMF)

Purpose: The Revolutionary Maoist Front is a pre-party Formation to help spread the ideology of Marxism-Leninism-Maoism in the United States. The RMF draws inspiration from the Communist Party of Turkey/Marxist-Leninist (**TKP/ML**), the Communist Party of India (Maoist), (**CPI (M)**), and the Communist Party of the Philippines (**CPP**), in their struggle against Fascism & Imperialism.

Ideology: The RMF espouses Marxism-Leninism-Maoism (**MLM**), The RMF aspires to wage a People's War against the Fascistic Government of the US. The RMF however distinguishes itself from other supposed "Maoist" organizations. The **RMF** is Anti-GZT, (Anti-Gonzalo Thought), Anti-GZT parties Denounce the universalization of Marxism-Leninism-Maoism. Pro-GZT "Maoist" parties (those in the **ICL**) claim that Maoism is and can be applied to any country. We deny that as Valid and we deny that it's grounded in reality. And We shall defend our position through the course of the RMF's existence.

RMF Leader: Me
Politburo Size: TBD

Our Positions on certain topics:

- **Religion:** We do not discriminate against any of our Comrades if they do follow a specific religion. We understand that if you oppress Religion, Fascism will pull the religious masses harder, than a Communist Party who is staunchly Atheistic and spreads anti-Religious rhetoric will ever do. We shall not alienate, we shall let them assimilate. Also, revolutionary organizations like the **Ejercito Liberacion Nacional** (National Liberation Army) was started by a Roman Catholic Priest, Camilo Torres Restrepo.

There are also Priests a part of the **Christians for National Liberation** within the Communist Party of the Philippines (CPP) and have done marriages for Gay couples within the CPPs Armed wing. Once you strip away all Bourgeois Influence from every religion, Religion becomes a force of Liberation. To those who are Religious and are socialists, fight against the reactionary clergy.

- **TERF's:** Such an Absolute Infantile and Dumb Cause, they claim to be "feminists" but yet deny Trans Females, just absolute Rubbish, and really hypocritical ideology.
- **NazBols/Strasserites:** You cannot be a White Nationalist, and a Communist, That is a logical Fallacy, We shall oppose this form of Revisionism, and absolute Ill-Witted groups that espouse these "ideologies".
- **Pol Pot Defenders:** You Must either be not a Communist/Maoist or an internet troll if you do this, plus His "revolution" was CIA backed. His "Marxism" and his Rule was nothing but Genocidal Nihilism Draped in Red.

On the Russo-Ukrainian War: We have been seeing everyday so-called "Communists" Support Russia in the Russo-Ukrainian War in the name of "Multipolarity", We oppose & challenge that position. We also see so-called "Communists" and "Progressives" support Ukraine… While the reasoning to support Ukraine is draped also in so-called "Anti-Imperialism" , we also oppose that stance. We see the current Russo-Ukrainian War akin to the situation of World War I, and as Lenin stated, "*It is becoming more evident every day that this is becoming a war between Capitalists, between big robbers,*" While we support the Ukrainian people for resisting Russian occupation, We do not side with anyone. We shall only show support for the Armed Struggles in Turkey, India, and the Philippines as a part of ***Proletarian Internationalism.***

On the Ideology of Juche and the State of North Korea: Juche is the current Ideology of the Workers Party of Korea

<Symbol for **Juche**

Although this ideology claims to be against Western/US Imperialism, "Marxist" and a "leading force against Imperialism," they are hegemonic, and Monarchical as their leadership is from one family… They are Right-Deviationists & Revisionists, and are heavily Ethnonationalistic. This ideology appeals to White Nationalists as the Atomwaffen Division & the O9A (Order of 9 Angles), and a fringe group called the Rural People's Party (**RPP**) have co-opted the so-called ideology of "White Juche."

On China, Vietnam, and Laos: the PRC in its early days, was Good, Under Mao, really great, but then during Deng & beyond, Capitalism Spread, and made Xi Jinping Chairman. For **Vietnam** however, Ho Chi Minh was mostly good, even though he allied himself with the USSR after the Sino-Soviet Split, and although he hung out with Deng, he's still one of the better Communist Leaders. But nowadays, they've softened up with the United States and have begun/done international trade with them. **Laos**

aligned itself with Vietnam in the Secret War/Laotian Civil War, and therefore followed a similar path.

On Cuba and Venezuela: Nothing much to say here… Venezuela isn't even inherently socialist… The PSUV are just revisionists, rallying around in a facade called "Socialism of the 21st Century." Cuba on the other hand, still is pretty revisionist in their standings… as they became a pawn of Soviet Social-Imperialism, during Khrushchev.

On Ultra-Leftism & Dogmatism: Some Groups Might call the **RMF** as "Ultra-Leftists" (or simply **Ultras**), we challenge that notion, as Ultra-Leftists & Ultra-Leftism Relies on **Idealism** & **Fantasy**. The **RMF** applies Maoism to the current conditions to the United States, and not as an infallible & unchanging truth that applies to everywhere. The RMF upholds that you must Apply Maoism to your country's conditions, and that different countries' conditions differ, so therefore Tenants like People's War/Protracted Peoples War is not universal & is Malleable.

On Anarchism & Left Communism : Anarchists and LeftComs are ideological Purists that attack others for being "Stalinists" & "Tankies" due to people being defensive of the USSR, and These people are idealists, who talk about revolution but never are actually do anything to contribute to their own cause. While we are willing to work with Anarchists, Before and During the Revolution, after it although, they will be lost, while we will become victorious!

On Trotskyism: Trotskyism is the Ideology indirectly and/or Directly created by Leon Trotsky.

<-- Symbol for **Trotskyism/The Fourth International**
Trotskyists are like LeftComs, they are ideological purists that are Idealists, this ideology can't operate in reality.

On the DSA, PSL, WWP, and the CPUSA: The **CPUSA** was founded on September 1, 1919 by American Socialists that wanted to establish Marxism-Leninism. They were the ultimate fighting force against US Imperialism and Capitalism right in the Imperial Core. But we see that they have abandoned the communist struggle, they have rallied about "Communism through the ballot" and we see that as heavily revisionist and going against Communist Principles. The **PSL** on the other hand was founded in 2004 from a split from the **WWP** (Workers World Party), The Workers World Party, Supports North Korea, and the Government of Lukashenko. The **PSL**, which was founded in 2004, in that fashion also supports the Governments of North Korea, Belarus and also supports Multipolarity as they also support Russia in the Russo-Ukrainian War. The **PSL** claims to be a "revolutionary party" but they also bend the knee to electoralism, as they run in local Elections. The **DSA** (Democratic Socialists of America) is a political organization in the United States that aims to convert the United States from a Capitalist Nation to a Socialist State through Democratic Means, we see this as absolutely idealistic and unrealistic in today's society. We see them as Social Democrats that claim to be Socialists, but yet tail the Genocidal Democratic Party. The **RMF** rejects Revisionism, electoral Tailism, Campism, and Reformism. We uphold that Revolutionary Struggle is the **Only Way** towards Liberation and towards Socialism.

On Other Socialist Organizations: We have critiques of other Socialist Organizations as well, The **FRSO** or the (Freedom Road Socialist Organization) is a "Socialist" organization that has followed the reasoning of the **PSL** & the **WWP**, They support the governments of China, Cuba, Laos, North Korea, and Vietnam. They claim to be Marxist-Leninists, but yet fall into the Hands of Revisionism. The Revolutionary Communists of America or the **RCA**, are a group of Trotskyists… and from what we've seen, Trotskyist Principles have nonetheless been revisionist. History has shown that these tendencies have deviated from true Marxist principles and fail to uphold any mass support. The Revolutionary Communist Party or the **Revcoms**, are a cult that proclaims to be "Maoists". They started out as the biggest proponent of Marxist-Leninist-Maoism that aspired to Wage People's War in The United States. But then the Revolutionary Communist Party then devolved into A Cult of Personality around the Founder, Bob Avakian, We oppose their supposed "*New Synthesis*" and their cultish behavior. We as the **RMF** shall oppose any Cults of Personality as we shall only

On the Red Guards (2015-2022): The "Red Guards" were a cult that tried to start the People's War in the United States. They were led by Jared Roark, The "Red Guards" was a Network of Cells that espoused "Marxism-Leninism-Maoism", The Organization had Front Organizations like "**Defend Our Hoodz**" and "**Serve The People**," these groups were not only used for mass work… but for internal consolidation. The supposed "Red Guards" had then turned into an adventurist, Dogmatist, Abusive, and Commandist group. The leader of the cult, Jared Roark, had organizations that "*Could be found in public positions in front organizations and/or serving leadership privately, for example doing childcare for Jared and Lisa, running errands and delivering messages across the country, or serving as cooking, cleaning, or security for*

events." We as the **RMF** shall not fall into the Same Traps, the same pitfalls that their Leadership had.

Our Position on The *ICL* (International Communist League): The International Communist League is a newly-made multinational Communist organization that is pro-GZT in their Ideological Standings. We disagree with what they proclaim with Chairman Gonzalo, We Disagree with what they proclaim about universal people's war, Their upholding of Jefatura, we see that as ultra-leftist Cultism & aligns them more with the style of **Juche**, than anything relating to Maoism. We also see the formation of the **ICL** as premature and that the conditions of the world don't fit for said formation of a Maoist/Communist International Coalition. We see the parties that follow "**Gonzalo Thought**", or "**Marxism-Leninism-Maoism principally Maoism**" as ultra-leftists. The reason why we see them so is because they are "jumping the gun" on trying to advance the revolution. They are divorced from the masses, and ignoring the reality of what has unfurled over the years. These Ultra-leftists proclaim that ***Protracted People's War*** is applicable to All Countries, and that therefore it is Universal. We as the **RMF** must understand that Revolution as of right now is not possible, as much as we desire, that Revolution isn't Viable. These "Maoists" are sectarian, cultists, and therefore are not to be trusted. As Chairman of the Communist Party of the Philippines' Jose Maria Sison has stated, "*Like those who were called infantile communists by Lenin, there are infantile Maoists whose main activity is to prance around and preach dogmatically that protracted people's war is doable at all times in all kinds of countries irrespective of the actual state of domestic social conditions and inter-imperialist conflicts. But if you look at the biographies of these infantilists in imperialist countries, they have been babbling about people's war for at least two*

decades to make themselves look superior to the real Maoists who are actually waging protracted people's wars."

On Hoxha and his Ideology/Followers: We discourage left-sectarianism within the Anti-Revisionist Movement, We find Hoxha's disagreements with Mao, as just disagreements & ordinary Mistakes in the name of Anti-Revisionism. Hoxha wrongly fought Mao as he thought he was defending the International Anti-Revisionist struggle. Still, Under Hoxha's rule Albania still remained a Dictatorship of the Proletariat. We shouldn't Fight, We shall Unite the Anti-Revisionist Movement through the Revolutionary Struggle of the people.

LONG LIVE MARXISM-LENINISM-MAOISM!

DEATH TO REVISIONISM!

DEATH TO FASCISM!

DEATH TO CAPITALISM!

DEATH TO CULTISM!

DEATH TO SECTARIANISM!

LONG LIVE THE PEOPLE'S WAR!

LONG LIVE THE REVOLUTION!

FIGHT FOR FREEDOM!

FIGHT FOR COMMUNISM!

REVOLUTION IS THE ONLY SOLUTION!
